Mr Gary Baughman
Hazardous Waste Facilities Unit Leader
Colorado Department of Health
4210 East 11th Avenue
Denver, Colorado 80220

Gentlemen:

On January 28, 1992, DOE/RFO, EG&G, EPA, and CDH project managers for Operable Unit No. 13 conducted a field visit at Operable Unit No. 13. The purpose of the field visit was to collectively assess which field sampling requirements outlined in the IAG made sense to incorporate in the upcoming Operable Unit No. 13 Work Plan, and which to change due to physical obstructions. Physical obstructions include buildings, overhead steam and high power electric wires, and buried utilities

Enclosed is an outline of the sampling activities and problems discussed in the field. DOE/RFO expects the Operable Unit No. 13 Work Plan will include a Field Sampling Plan that differs from the IAG and which reflects the enclosed outline.

Please contact DOE/RFO if anything in the outline appears different than that discussed in the field. Questions can be directed to Robert H Birk of my staff at 966-5921.

Sincerely,

David P Simonson
David P Simonson
